DETAILED ACTION

Response to Amendment

1. The Exhibit filed on 9/27/2002 under 37 CFR 1.131 has been considered but is ineffective to overcome the Baker (U.S. Pat. No. 6,338,067) and Katz (U.S. Pat. No. 6,055,513) references.

The evidence submitted is insufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the Baker and Katz references.

There is no evidence in Exhibit A of machine-readable specifications including at least one of definitions of, and references to definitions of, services offered and at least one of definitions of, and references to definitions of, documents to be exchanged with such services by trading partners.

There is no evidence in Exhibit A of data adapted for parsing to identify an input document and one or more transactions which accept said input document.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who

Art Unit: 2141

has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 USC 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 USC 122(b). Therefore, this application is examined under 35 USC 102(e) prior to the amendment by the AIPA (pre-AIPA 35 USC 102(e)).
